

Quick Start Guide

The most important steps at a glance – explained in a few minutes.

1 Sign in

1. Open WinAgent in your browser (Chrome, Edge, Safari ...).
2. Enter your **username** and **password**.
3. Click **Sign in**.

No account yet? Create one via **Register** – an administrator then approves it.

2 Overview

The menu is on the left (at the bottom on mobile). These are what you need day to day:

D Dashboard – overview

R Invoices – turnover

S Statistics – reports

% Commissions –
invoices

L Suppliers

K Customers

The **Dashboard** home page shows the supplier statistics as a **bar chart** and, next to it, a **pie chart** with each supplier's commission share.

Some menu items are only visible to administrators – that is normal.

3 View invoices

1. Click **Invoices**.
2. Choose the **supplier** at the top.
3. Pick the **period** using the buttons: **This week**, **This month**, **Q1–Q4** or **Year** – or set **From/To** yourself.
4. If needed, search on the right by **invoice no.**, **customer** or **date**.

The list loads automatically. **Click a row** to open the invoice with all line items. The **total** is shown at the bottom.

4 Reports (Statistics)

Under **Statistics** you can see turnover and commission – per supplier or per customer, compared to the previous year.

1. Choose a tab at the top (e.g. **Supplier Statistics** or **Customer Detail**).
2. Set the period or year.
3. Download the report with **PDF**.

5 Print a commission invoice

Under **Commissions** you'll find all commission invoices. On the right of each row:

- **PDF AMV** – download the invoice as a PDF.
- **PDF NAAG** – the alternative layout, if available.

Click a row to open the edit dialog – there you can change the **description**, and the new text is printed on the PDF too.

At the top you can filter by **supplier** and **status** (Open, Paid, Under review).

6 Customers & suppliers

Under **Customers** or **Suppliers**: click a row to edit, or **New** at the top to add one.

Delete a customer: select the row on the left, then click **Delete** next to "New".

Customers that still have transactions can't be deleted.

7 Language & profile

Click your **initials** (blue circle) at the top right. There you can set your **first name/name** and switch the **language** (German/English) – it takes effect immediately.

Good to know

Still seeing old data after a change? Reload the page with **Ctrl** + **F5**. To finish, click the **Sign out** icon at the top or bottom.
